

MVOICE 8010-B

USB/Bluetooth Conference speakerphone

For Efficient Collaboration in Large Conference Rooms

Have clear conversations even when people are across a large room with the MVOICE 8010-B speakerphone. It can connect to a PC, notebook via USB, or mobile phone via Bluetooth. Also works great with PC-based communication software and wide range video conferencing systems, to replace the PCs and mobile phone's speaker and microphone with outstanding audio quality.

- Simply Plug and Play

Easy connect to your PC or laptop via USB (TYPE-C), works great with PC based communication softphones, i.e Skype, Zoom etc.

- Wireless conference with Bluetooth

Support connection to mobile phone via Bluetooth, turn your mobile phone as a conference gateway anytime anywhere.

-5meters Microphone Pick Up

Each one speakerphone can pick up the sound with a 10m x 10m range with crystal clear audio.

-Robust Audio Quality

Let the far end hear clearly with our advanced audio algorithm, intelligent noise cancellation and powerful audio output.

- Connecting to external speaker

It provide a 3.5mm audio port for connecting to external speaker, to provide powerful speaker loudness for a wider room coverage.
